Ematai Medical Halacha Program

FOR MALE HEALTHCARE PROFESSIONALS

PRACTICAL CLINICAL CHALLENGES. SERIOUS HALACHIC LEARNING.

Designed for male Orthodox physicians, clinicians, and healthcare professionals facing challenging questions in serious illness and end-of-life care.

Through engaging, case-based shiurim, deepen your understanding of medical halacha, explore the medical and ethical considerations behind halachic decision-making, and strengthen your ability to communicate with rabbis, patients, and families.

Learn alongside colleagues who share these challenges through meaningful discussion, shared learning, and professional connection.

FACULTY

Rabbi Shlomo Brody, PhD
Executive Director, Ematai

Rabbi Jason Weiner, PhD
Senior Consultant, Ematai
Director of Spiritual Care at Cedars-Sinai Medical Center
